Nate...

What great news. It would be a significant reduction of liability for the City if "Stimulus" or other funding were able to be allocated to reconstruct the alleys on the east side of Sepulveda. And the Councilman would certainly merit a parade; the property and business owners, and the community have been trying to find a means to fund this work for several years. These alleys have been a real serious problem.

I've attached the information you requested as to exact addresses per the County Assessor's Office data. I've also attached a map, ownership information, and an estimate of the linear front footage involved. (Remember not to double count because these parcels back up to one another.)

As I can provide any additional assistance at all, please contact me. Thanks for your help.

Don

Nate,

Send me and BOSS team cc'd here the exact address/location of this alley. There is money in next FY's budget for paving/repaving of alleys. BOSS can evaluate this one and perhaps we can get this one funded.

Thx!

I heard about the City's efforts to attack pot holes and hope that the pot holes / street repairs on Sepulveda Boulevard between LAX and the BID are on the list. Council President Garcetti said there may also be stimulus money for big-fixes such as this one. I hope you can get us on the list.

Also, perhaps stimulus money could be allocated to repair the public alley on the east side of Sepulveda between the parking lots and the business entrances, which is a tremendous liability for the City given its terrible condition and notice of the hazard. Can that area get on the list?

Thanks NAte.
